Portfolio

Summary

Computer Science undergraduate targeting **product SDE roles** in backend/full-stack systems, with internship experience in **FastAPI/Node.js backends, REST APIs, JWT auth, PostgreSQL/MongoDB, AWS (EC2, S3), and CI/CD pipelines.**

Education

Velammal College of Engineering and Technology

B.E. in Computer Science and Engineering

Madurai, Tamil Nadu

2023 – 2027

Experience

Cloud & Full Stack Web Intern — *Reccsar Pvt Ltd*

Jun. 2025

- Built and deployed 3 full-stack applications on AWS EC2/S3 + MongoDB Atlas for non-profit and SME clients, with authenticated dashboards and real-time data visualizations.
- Implemented role-based access, audit logging, and CI/CD pipelines (GitHub Actions); cut release time from **30 min to 8 min.**

Web Development Intern — *Kevell Corp*

Dec. 2024

- Enhanced CI/deployment workflows with GitHub Actions; reduced test-to-production release time by **30%** and improved reliability.
- Built an intern management portal (MERN) for task tracking and feedback; reduced coordination time by **25%**.

Projects

Money Mirror — *Personal Financial Digital Twin*

GitHub

- FastAPI backend for personal finance planning: users input salary, EMIs, savings, expenses and receive **3–6 month cash-flow projections with low-balance warnings.**
- PostgreSQL schema + JWT-secured REST APIs for what-if planning with average query latency **120 ms.**

Marinetaxa AI — *AI-Powered Marine Taxonomy Platform*

GitHub

- AI taxonomy platform: ingests raw data, extracts features with **UMAP + HDBSCAN**, and integrates an **LLM for classification/explanation.**
- FastAPI backend with REST APIs deployed on **AWS with Docker**; reduced manual classification time by **40%**.

Log Beacon — *Log Analysis Backend*

GitHub

- FastAPI backend for log analysis: parses structured logs, filters by time/status, and supports regex queries for efficient debugging.
- PostgreSQL + Docker on AWS with query latency under **200 ms.**

DSA & Competitive Programming

Leetcode Profile – **320+** problems solved

Technical Skills

Programming: Java, Python, JavaScript, C, SQL
Backend: FastAPI, Node.js, Express.js, REST APIs, JWT
Databases: PostgreSQL, MongoDB

Cloud/DevOps: AWS, Docker, Git, CI/CD, Linux
AI/ML: PyTorch, TensorFlow, Hugging Face, OpenCV, LLM
Frontend/Tools: React, HTML, CSS, Tailwind, Postman, Figma

Research Experience

IEEE Author – International Conference on AIDE 2025, NMAM Institute of Technology

Awards Certifications

- **First Prize**, Designthon Euphoria'24 – Kalasalingam Univ.
- **First Prize**, DesignVerse'26 – VCET.
- **First Prize**, Project Expo Techathon'24 – SRIT.
- NPTEL Elite (Cloud Computing, Software Testing).
- NVIDIA Fundamentals of Deep Learning.
- Java Fundamentals.

Leadership Volunteering Roles

- Class Representative (2024–Present).
- Placement Batch Head (2025–Present).
- Committee Head – Academic Cell (2024–Present).
- Eco Club Member, VCET (2024–Present).
